# THE PRODUCTIVITY PARTNER RANGE

## DESIGNED FOR YOU

We call the compressors in this range “**productivity partner**”: These compressors were developed in conjunction with our key customers and are ready to perform. They are the perfect companion for heavy duty applications that require high free air delivery at high pressure.

## PERFORMANCE – WHENEVER AND WHERE EVER YOU ARE!

Our business name is Portable Energy. Transporting our compressors from one worksite to the next is made simple thanks to their compact size, light weight and balanced design.

We designed our products to perform efficiently in the widest range of conditions: high altitudes, cold or hot climates, dusty environments, off shore, or areas with the most demanding environmental regulations.

## DO MORE AT A LOWER COST

Atlas Copco compressors are renowned for its technological excellence. Our units have the best specifications in the market and are developed to give you a higher performance and lower costs. Bottomline: higher profitability for your business.

Thanks to our excellence in product development we are able to offer you state of the art features: intelligent controllers, features to digitally optimize pressure and flow according to your application and environment, features to optimize safety and environmental sustainability, and guarantee a longer lifetime of your investment.

### LARGE AIR RANGE

24.0-30.6 m<sup>3</sup>/min  
7-14 bar

### DRILLAIR RANGE

20.6-45.0 m<sup>3</sup>/min  
12-35 bar

### TWINAIR RANGE

56.1-63.5 m<sup>3</sup>/min  
12-25 bar

### OPEN UNIT RANGE

40.2-43.2 m<sup>3</sup>/min  
25-30 bar

## COMMITTED TO SUSTAINABLE PRODUCTIVITY

We stand by our responsibilities towards our customers, towards the environment and the people around us. We make performance stand the test of time. This is what we call - Sustainable Productivity.
